

## Activity

# BUILD A WILD CITY

Our partners Pets at Home explain how to gather a gang of wildlife critters around your meeting place

### Suitable for Beavers and Cubs

#### You will need:

- Paving slab, brick or rock
- Plastic storage box
- Leaf and twig litter
- Straw
- Recyclable paper carrier bag
- Bricks
- Shallow dish
- (ceramic or metal)
- Stone
- Water

### HEDGEHOG HOME

Cut a door and window into the storage box and hand over to the young people. They can turn it upside down, leave a bed of straw and leaf litter inside, and spread the opened paper bag over it before covering with leaf litter.

### FROG PAD

In a cool, shaded area, dig a shallow bowl shape with a short trench/pathway heading out of it. Carefully cover with a paving slab, brick or rock.

## BADGE

Pets at Home partners the Beaver Scouts Animal Friends and Cub Scouts Animal Carer Activity Badges.

## PARTNER

where pets come first

## OUTCOMES

The young people will learn how to make creatures welcome, plus DIY and building skills.

## MORE INFORMATION

### BIRD BATH

In a flat spot, sheltered from the wind, place three bricks in a triangle. Place your dish, with a stone in it, over the top and half-fill it with water. If the water freezes, turn out the ice and refill your dish with fresh water.
